

## EMPLOYEE INFORMATION

- The Proposed FY/04 Enterprise Budget recommends less than a 1% increase in the number of positions.
- The proposed budget includes the transition of 3 positions to the Special Revenue fund from the Air Pollution Control Grant. This will enable the Air Quality Division to align the appropriate resources with the Operating Permits Program, thereby maintaining compliance with the intent of the Federal Clean Air Act Amendments of 1990. These positions will conduct permitting, compliance, and outreach activities.
- Seven positions have been created in Aviation to handle security and operations issues. The addition of two Aviation Police Officers, one Aviation Police Sergeant, and an administrative assistant are partially offset by a reduction in contractual services and overtime. Operations adds a plumber, an Aviation Operations Center Shift Supervisor, and an administrative assistant to handle requirements for both increased security and the old terminal building being leased by the Transportation Security Administration. These additions will also be partially offset by a reduction in overtime.
